

EndoWhat?!

What everyone needs to know about endometriosis

Endometriosis is a significant condition, affecting at least 10,000 Waikato women and teenage girls. It can seriously impair quality of life, impact adversely on schooling and work, and is a leading cause of fertility problems. Lacking profile it can take many years to diagnose.

'EndoWhat?' provides key information. The presentation is available on a koha basis to community organisations and workplaces. A complete set of notes is provided and follow up information and support is available for anyone needing further help.

Time Requirement: The presentation is available in a full format of 45 minutes or brief version of 20 minutes, and can be further adapted to suit your requirements. It is suitable for lunchbreaks, evening meetings, seminars and information nights.

Equipment: We have our own laptop and data projector so just need a room with seating and a whiteboard or wall.

Promotion: We can supply promotional posters and emails to promote to your members/staff/clients/students.

Bookings: For information or to book a presentation, contact our Educator, Annette: info@InsightEndometriosis.org.nz / 07 8555 123
